HORNSILVER MIZPAH

Joseph Pinsolini, president of the has let the contract to sink the first change of time. 100 feet of shaft on Mizpah ground to J W Crane Crane will be ready TONOPAHNS TO WITNESS to start work early next week. The shaft will be put down at the spot selected some time ago by Engineer

When President Pincolini was at Hornsilver prospecting was done on other parts of the property. Over near the old shallow shaft a parallel vein was found. While they il, some samples showed \$18 at one point and \$59.40 at another. Lafer explorations will be made to determine the dip and strike of this

It would appear that there is t heavy mineralization at many points on the claims of the Mizpah From some outcroppings up on the fillside and about 700 or 800 feet from the point where the shaft is to to down samples showed values of from \$4 to \$6. The chief values on the Mizpah are in silver, though sold shows to considerable value. In the \$71.60 assay from the thaft location about \$11 of the amount is in gold, the balance in -liver. Other assays are in about he same proportion
